Professional Summary

Data Analyst with hands-on experience in data cleaning, statistical analysis, automation, and dashboarding. Proficient in Python, SQL, Excel, Tableau, and Power BI. Proven ability to deliver actionable insights and improve team productivity. Passionate about solving real-world business problems with data-driven solutions.

Educational Qualification

Course	Year of Passing	Marks	Subject Taken	Board
B.Sc. (Data Analytics)	2024	88.5%	DBMS, Data Collection and Handling, Advance Excel, Python Programming, Tableau, Machine Learning, Data Structure and Algorithm, Statistics, Power BI, Web Development, Natural Language Processing, Discrete Mathematics, Model Deployment and Cloud Modeling, Time Series and Forecasting, Cyber Security, Deep Learning, Graph Theory	Delhi Skill and Entrepreneurship University, Dwarka (A University of Delhi Government)
Intermediate	2021	74.3%	Physics, Chemistry, Mathematics, Hindi, English	St. Charles Inter College, Sardana (Meerut) (Board of High School and Intermediate Education Uttar Pradesh, Prayagraj)
High School	2019	75.6%	Hindi, English, Mathematics, Science, Social Science, Computer	St. Charles Inter College, Sardhana (Meerut) (Board of High School and Intermediate Education Uttar Pradesh, Prayagraj)

Work Experience

- **Research Associate**

Marqual IT Solutions Pvt. Ltd. (KBV Research) - January 2025 - Present

- Analyzed data using Microsoft Excel, identifying trends to support internal data-driven decisions.
- Improved team productivity by 20% through the design and maintenance of automated data processes..
- Collaborated with research and operations teams to ensure data accuracy, consistency, and quality control across multiple projects.

- **Data Analyst Intern**

Data N Stats Pvt. Ltd. - February 2024 - May 2024

- Analyzed datasets to identify trends, patterns, and insights for business decisions.
- Automated data scraping using Python and Selenium, reducing data collection time by 50%.
- Applied advanced data manipulation techniques using Pandas to clean and transform datasets.
- Collaborated with cross-functional teams to deliver tailored data solutions.

- **Research Intern | Ikaai india Pvt. Ltd.**

July, 2023

- Cleaned and pre-processed datasets, ensuring high data accuracy.
- Created interactive dashboards with Tableau and Power BI to visualize data, supporting key decision-making.
- Conducted statistical analysis using SPSS to derive actionable insights from research data.

Professional Skills

- **Tools & Technologies:** Excel (Advanced), Tableau, Power BI, SPSS
- **Programming:** Python, SQL
- **Techniques:** Data Cleaning, EDA, Data Visualization, Statistical Analysis, Forecasting
- **Soft Skills:** Problem Solving, Communication, Teamwork, Time Management

Projects

- **Employee Layoffs Data Analysis**

Tools: MySQL

- Cleaned and transformed a dataset of over 5,000+ layoff records using SQL; resolved 100% of missing values, removed duplicates, and standardized inconsistent formats for accurate analysis.
- Derived layoff trends across 50+ companies and 10+ industries, using GROUP BY, JOIN, and filter queries to uncover patterns across time and sectors.

- **Netflix User Behaviour Dashboard**

Tools: Tableau, Excel

- Created interactive Tableau dashboards to evaluate 10,000+ Netflix user records, highlighting trends in watch time, device usage, and genre preferences.
- Delivered actionable insights that supported content strategy decisions by identifying top 5 most-watched genres and peak engagement hours.

- **Diabetes Prediction Dashboard**

Tools: Power BI

- Built an interactive Power BI dashboard using a dataset of 750+ patient records to visualize diabetes risk factors, prediction outcomes, and individual health metrics.
- Visualized key indicators such as glucose levels, BMI, age groups, and prediction results, enabling stakeholders to identify high-risk patients.

- **Car Price Prediction Model**

Tools: Pandas, Scikit-learn, Matplotlib

- Developed a linear regression model using Python to predict car prices based on 7+ key features including brand, year, fuel type, and transmission.
- Pre-processed a dataset of 1,500+ entries by handling null values, encoding categorical variables, and treating outliers, achieving a model accuracy of 70% (R^2 score).

Academic Achievements and Certifications

- PL-300 certificate: Microsoft Power BI Data Analyst/DA-100
- Python Certificate (Udemy)
- Advanced Excel & Financial Calculations (elearnmarkets)
- Code Spardha - Coding Competition

Hobbies

- Doing Yoga
- Playing Badminton

Extra - Curricular Activities

- NSS Member in college.
- Hackathon Participation.
- NCC Member in School.
- Participation in interschool Speech Competitions.
- Scout and Guide Member in School
